

TREACHEROUS RIVER

It Sweeps Down on a Small Town in Texas.

DEATH AND DESTRUCTION.

A Number of Lives Lost but the Exact Number Is Unknown—An Earthquake Shock Accompanies the Downpour of Rain—A Loss of Over a Million Dollars. Crops Damaged.

UVALDE, Tex., Sept. 1.—A terrible catastrophe befell this thriving town yesterday morning and today there is mourning in many households. The calamity was unexpected. The treacherous Leona river, swollen to a raging torrent by recent rains, rushed, without a moment's warning, down upon the town, submerging and wrecking many houses and drowning a number of people. In this arid section such destructiveness by the elements has never before been chronicled. In the excitement of the day it is not definitely known how many have been drowned. Among the bodies that have been identified are:

Mrs. Joe Hatch.
Miss Mattie Edwards.
Child of Mr. Maley.
Two Mexicans.

It was about 2 o'clock in the morning when the flood came. The weather had been threatening and there were ominous clouds to the north and east of town. The atmosphere had been close during the evening and these predictions of a storm were freely made. The town's citizens went to their beds not with happy minds.

As the hours wore on, and the people continued their slumbers, the dark clouds rose higher and higher. Just as the storm broke over the city in all its fury, a torrent of water rushed down the Leona river, overflowing the banks of that stream and flooding the lowlands on either side to a depth of several feet. The east side of the city is built on lowlands and was directly in the path of this water.

All the houses in this part of the town were submerged, and in the darkness and throughout the downpour of rain that was falling could be heard the cries of distress from the 150 inhabitants in their wild efforts to save their lives and those of their families and loved ones. There were a number of miraculous escapes and the rescuers and the rescued performed many heroic acts. As soon as those in the higher part of town were made aware of the terrible flood and dire consequences, the work of rescuing was begun and carried out as rapidly as possible in the darkness of the night.

Great apprehension is felt for the families living on the ditch south of here, where from 75 to 100 families live, and the land lying 15 feet lower than here, it is feared they have been destroyed. One Mexican family, living on the ranch of L. Schwartz, five miles below town, are supposed to have been lost, no vestige of ranch buildings being left. It is feared that Indianola's history is repeated.

An earthquake shock of some seconds duration was distinctly felt during the night. At one place near the city about a quarter of a mile of heavy cracks appear on each side of the Leona river, having apparently no bottom. A track-walker of the Southern Pacific, after wading through water up to his neck with his lantern elevated above his head, succeeded in feeling his way far enough east to intercept a westbound train and prevent its plunging into the raging river, where the railroad bridge had been destroyed.

News has just reached here that three families living below town were drowned. The names have not yet been learned.

According to reports received at the Southern Pacific offices the terrible flood was augmented by a most remarkable phenomenon, which was caused by the earthquake.

The loss to the Southern Pacific company is enormous, 40 miles of track and many bridges having been washed away. Over 100 carloads of material and laborers have left San Antonio for the scene of the wreckage. The damage to the Southern Pacific extends eastwards about 75 miles from this city. A rough estimate of the loss to property in general and the railroad company will as far as known reach a million and a half dollars.

SENSATIONAL STORY.

A Woman So Severely Punished That She Dies of Her Injuries.

NEW YORK, Sept. 1.—A sensational story was published yesterday to the effect that a Detroit woman, well known for her acts of charity, who wanted to join a sisterhood of the Protestant Episcopal church, was so severely punished at the community house on her arrival that she died shortly afterward on her way home.

Miss Cornelia L. Wain of Detroit arrived in this city last month with the intention of joining the St. Joseph's sisterhood, which has its house at 34 West Second street. She died a week ago at Niagara Falls.

According to the story published, she was severely punished for a slight infraction of the rules and was placed in a cell and half starved. The mother superior of the sisterhood said:

"I received a letter from Miss Wain, saying that she wanted to join our sisterhood and she would come on for a week to see how she liked the life. I replied, saying the time was too short, and that she must stay at least two weeks before she could become a novice. When she arrived she appeared in ill-health. She complained so much that

I had several extra dishes prepared for her from time to time. The whole story, I believe, has been gotten up by her relatives, who I understand are bitterly opposed to sisterhoods."

THEY ARE COWARDS.

One Japanese Soldier Good For Half a Dozen Chinese.

NEW YORK, Sept. 1.—Fred Wilson, who was United States marshal at Shanghai during the administration of President Lincoln, scouts all of the prevailing reports from Chinese sources recounting the triumphant progress of Chinese arms.

"I expect the Japanese to march upon and capture Peking," he said. "Superiority of numbers will not help the Chinese, as they can not fight and can not be made to fight, except with white officers for every squad. These they only have in limited number. Their own mandarin officers will run as promptly and as hard as the commonest coolie trooper. Their equipment is in large part of the most primitive character. Their formidable hordes of cavalry you hear about is chiefly composed of men on mules and donkeys. One Japanese is good for a half dozen Chinamen. The truth from the seat of war, when we get it, will bear a different aspect from present stories."

WITH VARIATIONS

This Item Has Appeared at Irregular Intervals For Years.

HONG-KONG, Sept. 1.—A terrific fire has occurred on the Canton river. A flower boat caught fire and the flames spread until hundreds of those crafts were destroyed. The progress of the fire was so rapid that at least 1,000 natives perished in the flames. The flower boats were moored stem and stern, in rows, and large numbers of natives lived upon them. The spread of the conflagration from one boat to another was so rapid that the unfortunate Chinese had no time to cut them from their moorings, a strong wind materially helping the increase of the fire. Many hundreds of persons on board the flower boats leaped overboard and were drowned, while several hundred others remained on board the doomed craft and perished in the flames.

Scaffold Fell.

WASHINGTON, Sept. 1.—Five workmen on the new St. Paul Catholic church, new building in the northwestern part of the city, were seriously injured by the falling of the scaffold on which they were at work. One of the men may die. The men whose injuries are serious are: Christ Jarrett, who may die; Frank Jarrett, Richard Haines, a negro hodcarrier, and another hodcarrier, also a negro, whose name is unknown. The injuries to the fifth man who fell were found not to be dangerous.

Mutilating Human Beings.

LONDON, Sept. 1.—A dispatch to The Daily News from Berlin says: The advice received there from Samoa state that in a fight between the native forces in June, the ears of one of the rebels was cut off and taken to Apia, while the heads of two other rebels were severed, despite the recent decree against such mutilation. The rebels retaliated by cutting off the head of one of Mallet's scouts.

Women Wanted to Vote.

VINELAND, N. J., Sept. 1.—An election was held in Deerfield township yesterday to decide certain items as to school superintending in the district. The women wanted to vote and tried to assert their supposed rights at the polls. This caused much bad blood, which finally resulted in a small riot. Knives and pistols were called into use, and one man was painfully wounded and several others injured.

Salt on the Rail.

ASHEVILLE, Sept. 1.—A trolley car on the Asheville and Sulphur Springs street railway became unmanageable, and running down a heavy grade flew the track at a curve. The car was full of passengers, many of whom were injured. All were summer visitors. None of them will die. Investigation shows that salt had been sprinkled on the rail at the point where control of the car was lost.

Mills Shut Down.

WOONSOCKET, R. I., Sept. 1.—One hundred employees of the River spinning mills have struck against a change in the system of payment. They were notified that hereafter they would be expected to work by the piece instead of by the week. The change amounts to a reduction in wages. The mills were at once shut down.

Miss Sanger's Luck.

WASHINGTON, Sept. 1.—Miss Alice Sanger, who was the stenographer at the White House during the Harrison administration, and who has assisted Mr. O'Brien, Mr. Cleveland's stenographer, under the present administration, has been transferred to the post-office department at \$1,400 a year.

Fort Arthur Attacked.

LONDON, Sept. 1.—A dispatch to The Times from Shanghai says: A Tientsin dispatch from Chinese sources says that 14 Japanese ships, with over 4,000 troops, are attacking Port Arthur. The Chinese garrison, numbering 5,000 men, and the Chinese fleet have been ordered to attack the Japanese.

COLUMBUS, O., Sept. 1.—Albert Heed, defaulting postmaster at Albion, Ida., was arrested at Barnesville, O., yesterday by Marshal Bohl. He was brought to Columbus and will have a preliminary hearing.

One Person Killed.

VALPARAISO, Ind., Sept. 1.—Word was received here at noon that a serious freight wreck had occurred on the Pan-handle, near Kouts. One person killed.

IT MIGHT BE BETTER.

Trade Not as Good as It Really Ought to Be.

EFFECTS OF THE TARIFF LAW.

The Gain in Business Is Not Yet Which Was Expected, and Business, If Good in Comparison With Last Year, Is Still Poor in Comparison With Years Preceding.

NEW YORK, Sept. 1.—R. G. Dun & Company's weekly review of trade says: The activity which came with exhausted stocks and the pressure of delayed fall demands, and was increased by the removal of uncertainty about the tariff, has continued with heavy entries of foreign goods since the bill became a law. The gain is not yet what was expected, and business, if good in comparison with last year, is still poor in comparison with years preceding.

Presumably there has not been time to feel the full effects of the change and a gradual gain will be more healthy and encouraging than a spasmodic rise, but the expansion of commercial loans has suddenly ceased, prices of manufactured products show weakness rather than strength and there has been a reaction in the stock market, prices of railway stocks averaging 32 cents and of trust stock 2.11 per share lower than a week ago.

Wheat moves largely and western receipts were 5,762,777 bushels for the week, against 2,933,001 last year and for August 28,500,000 bushels, against 15,300,000 last year, which does not fit short crop predictions. Atlantic exports for the month have been only 14,000,000 bushels against 24,000,000 last year, and the price has risen a shade during the week.

Receipts of corn are only 1,423,302 bushels, against 3,460,646 for the week last year, while exports are insignificant, and the price has advanced 3 1/2 cents, while pork has risen 25 cents per barrel and lard 55 cents per 100 pounds. Fears of frost, the crop being late, are argued as a reason for quotations otherwise unwarranted. Cotton has declined an eighth for the week, but the year closes with every indication of a yield materially exceeding the world's maximum consumption of American and with 1,600,000 bales of old cotton in sight.

If all the mills were running full force, the situation would not promise much. The demand for products of iron and steel has increased, but prices tend downward where any change appears, as there is not enough business yet to employ the works in operation. Steel bars are sold at 1 cent at Pittsburgh and wire nails at 1.05 cents, with Bessemer iron at \$11.85, several additional furnaces having gone into blast.

An encouraging sale of 40,000 bundles cotton ties in competition with foreign ties, duty free, warrants hope that current prices in other branches may be low enough to meet the coming rivalry, and a sale of Messaba ore at \$2.35 delivered at lower lake ports is reported. There is a better demand for structural work, though one considerable contract for Cuba was broken off by the advance in Spanish duties.

Failures are still few and small. For the third week in August reported liabilities were \$2,976,518, but for three weeks only \$8,214,470, of which \$2,845,338 were of manufacturing and \$3,584,414 of trading concerns. The average is only \$11,521 per firm failing. The failures this week have been 188 in the United States, against 396 last year, and 40 in Canada, against 29 last year.

TREASURY STATEMENT.

Over Forty-One Million Dollars Received During the Month.

WASHINGTON, Sept. 1.—The cash balance in the treasury yesterday was \$126,875,440, of which \$55,248,023 was gold reserve. The total receipts from all sources at the treasury during the present month amount to \$41,021,330, and the disbursements \$31,668,804, leaving a surplus for the month of \$9,352,526, although the disbursements yesterday exceeded the receipts by \$348,512. Of the receipts \$11,504,914 were from customs and \$27,502,278 from internal revenue.

Only \$448,174 was received yesterday from internal revenue sources and this, it is thought, came almost entirely from the sale of oleomargarine and tobacco stamps. The Peoria (Ills.) district, which during the time the tariff bill was in the hands of the president yielded as high as \$500,000 in a single day on whisky withdrawals paid last Wednesday only \$48. For the first time in several months the customs receipts reported yesterday amounted to more than \$1,000,000 and this increase is expected to continue until a large part of the goods now in bond shall have been withdrawn. The pension payments this month amount to \$12,615,556.

Explosion of a Boiler.

MUNCIE, Ind., Sept. 1.—The boiler of a thrashing engine, owned by John H. Miller, exploded last evening on Hiram Sumner's farm, west of Muncie. The thrashing machine, wagons and 300 bushels of wheat were burned. Loss, \$1,500. Cause unknown. The miracle of the accident is that not one of the many farmers near the engine were injured.

Child's Brains Beaten Out.

LEXINGTON, Ky., Sept. 1.—Yesterday at Pinecastle, in Wolf county, Joseph E. Gum left his 3-year-old child in care of its cousin, Henry Gum, while he went to work in the cornfield. The boy, becoming tired of his charge, beat its brains out with a club and then threw the body in a creek. He was arrested and is now in jail at Boatsville.

KNIGHTS OF PYTHIAS.

Doings of the Knights and Ladies Assembled at Washington.

WASHINGTON, Sept. 1.—The supreme edge of Knights of Pythias received a report yesterday from a committee to draft a new ritual for the uniform order and made the matter a special order for next Tuesday. A discussion of the proposed amendments to the constitution which will establish a judicial body analogous to the supreme court, empowered to decide disputes over constitutional matters, absorbed most of the day.

It is understood that the committee of five to which was delegated the investigation of the membership in the fraternity of liquor dealers and bartenders will report in favor of an amendment to the constitution which will prevent the future admission of such persons, although not affecting the standing of those who have been initiated.

The committee in charge of the question permitting the performance of the ritual in German has given hearings to the representatives of western German lodges, but has reached no conclusion.

The supreme assembly of the Pythian Sisterhood elected officers for the ensuing two years. Mrs. George Bemis of Worcester, Mass., was chosen supreme chancellor to succeed Mrs. A. A. Young of Concord, N. H., the founder of the sisterhood. The other officers elected were: Supreme vice chancellor, Mrs. G. L. Van Wort, Jersey City; supreme prelate, Mrs. W. A. Dillworth, Nebraska; supreme mistress of E. Mrs. L. A. Small, re-elected, New Hampshire; mistress-at-arms, Mrs. Anna M. Mueller, Rhode Island; supreme assistant mistress-at-arms, Mrs. Robert Smith, Ohio; supreme inside guard, Mrs. J. Loring, New York; supreme outside guard, Mrs. E. G. Cole, Maine; supreme organist, Mrs. J. H. Brown, Rhode Island.

DEATH OF JUDGE HANNA.

He Was the Oldest Practicing Attorney in the State of Ohio.

McCONNELSVILLE, O., Sept. 1.—Thursday evening at 11 o'clock Judge J. E. Hanna died of heart failure at his home here after an illness of but two hours. During the day he had been on the streets and was in his usual health. Judge Hanna was the oldest attorney in Ohio, having been admitted to the bar in 1825, when but 19 years of age. He has been in active practice ever since, even to the day of his death.

He served as prosecuting attorney of Morgan county from 1831 to 1838. He was then elected to represent Morgan county in the legislature in 1838 and was re-elected, serving two terms. In 1840 he was chosen judge of the Eighth judicial circuit of the court of common pleas, serving 7 years. In 1854 he was again made judge, being appointed to fill out the vacancy made by the resignation of Judge Stillwell. The most remarkable feature of his official life was his two terms as postmaster of McConnelville. In 1831 was appointed by President Jackson to this position.

In 1885 he was appointed to the same position by President Cleveland. He was appointed one of the trustees of Athens asylum by Governor Foster, and through his influence Dr. Agnes Johnson was appointed physician in the female wards of that institution. This was the first lady physician in any of the institutions for the state. Judge Hanna was one of the earliest settlers of McConnelville, and his mind was well stored with interesting reminiscences of pioneer times. He was a man of brilliant wit and remarkable conversational powers, and his familiar figure will be sadly missed on our streets.

PROSECUTING DEBS.

The State's Attorneys Think They Have a Good Case.

CHICAGO, Sept. 1.—United States Attorney Dixon, ex-United States Attorney Milchrist, Special United States Counsel Edwin Walker and Moritz Rosenthal, assistant attorney, held a conference yesterday in Mr. Dixon's office with reference to the prosecution of the Debs' contempt case, which Judge Woods will hear Sept. 25.

Methods of procedure were discussed and preparations will be made for a most vigorous prosecution of the strike leaders. Mr. Dixon declined to state from what sources he had secured evidence, but said: "We will show the hand at the side of these men during the trouble. I am confident that our case is a strong one. The trial ought not to occupy more than three or four days."

NO MOTIVE FOR THE CRIME.

A Widow Woman Murdered by One of Her Boarders.

NEW YORK, Sept. 1.—At 1:30 this morning, Mrs. Josephine Hoffman, a widow living with her son in the second floor of 542 East Sixth street, was murdered by Charles Feigenbaum, 53 years old, a boarder who had lived with the family a short time. The woman's throat was cut from ear to ear.

Mrs. Hoffman's son was awakened by his mother's cries. He ran to her room and found her murderer standing over her with an ugly looking knife in his hand. Feigenbaum made for the son on his appearance. Young Hoffman made his escape through a window and reached the street. He found a policeman and Feigenbaum was arrested. No motive for the crime can as yet be learned.

Killed While Intoxicated.

SOUTH BEND, Ind., Sept. 1.—Fred Smith, 28 years old, unmarried, was killed early yesterday morning while crossing the Lake Shore track in a buggy. He was intoxicated. The accident was not seen by anyone. The body was found alongside the track, lying on its face.

FEARS FOR THE NINA

A Wrecked Vessel Seen Near Sabine Island.

IT MAY BE THAT VESSEL.

The Nina Is the Little Schooner-Rigged Sharpie, in Which Captain A. Fretsch, the Norwegian Adventurer, From Milwaukee, Left New York to Sail Single-Handed Across the Atlantic.

NEW YORK, Sept. 1.—The steamship Scandia, which reached port yesterday, reports that on Tuesday she sighted a wreck, estimated at about 30 feet long, but it was too dark to make her out distinctly. The derelict was encountered in latitude 43.06, longitude 59.19, which point would be about 50 miles southeast of Sabine island. From the small size of the wrecked vessel and her position when sighted it is possible that it may have been the little schooner-rigged sharpie, Nina, in which Captain A. Fretsch, the Norwegian adventurer, from Milwaukee, left this port to sail single-handed across the Atlantic.

The Nina is about 40 feet long over all, and would be in about the position mentioned on the date when the Scandia passed the wreck. The little vessel left this port Aug. 5 in anything but seaworthy condition and an ultimately end to the craft and her reckless skipper is in line with predictions made at the time of her start by seafaring men, who know well the need of sound timbers and well caulked planking.

In maritime circles it is not believed that the wreck was the Nina. The latter was painted a deep sea green color just before she left port, and as the wreck is painted white, it is assumed that the wreck can not be the Nina. The hydrographic office charts show the wreck of the Golden Rule to have been on July 21, about 200 miles southeast of the position where the Scandia sighted the wreck, and since that date she has had plenty of time to have drifted to that point. There is certainly some mystery about the Nina. Some seamen are of the opinion that the captain has not made the attempt to cross the ocean, but that he crept into some port unobserved. They say he could not have failed to be seen by some outgoing vessel the first few days after he left port. As it is, not one vessel has reported the Nina since she left here.

"FLYER" WRECKED.

A Herd of Cattle Causes a Disaster on the Chicago and West Michigan Railroad.

GRAND RAPIDS, Sept. 1.—The Chicago and West Michigan fast train, known as the resort "flyer," which left here for Potosky at 7:30 yesterday morning, was wrecked 12 miles south of Baldwin by running into a herd of cattle. The engine was overturned and the entire train derailed except the parlor car, which remained on the track. Fireman John Kobe of this city was instantly killed, being crushed under the engine, and Engineer John S. Patterson was so badly injured that he died after being brought to this city.

One passenger, a Mrs. Dookery, residence unknown, was slightly injured. There were few passengers on the train. Its western and southern connections here were late and it was sent out without the passengers from St. Louis, Chicago, Indianapolis, etc., thus missing the wrecked train.

CONTESTING A WILL.

This Document Written on the Flyleaf of a Daybook.

BRAZIL, Ind., Sept. 1.—Relatives of the late Reuben Webster entered suit to contest the will he made on the flyleaf of a small daybook, just before his death, bequeathing his fortune of \$200,000 to certain relatives. There are over 250 interested parties in the lawsuit, and it promises to be the biggest legal contest ever witnessed in the county.

Mr. Webster was an eccentric old man, having lived alone for many years, and at the time of his death, four months ago, \$1,500 in gold and \$2,000 in greenbacks were found on his person, belted around him.

Explosion of Natural Gas.

INDIANAPOLIS, Sept. 1.—By an explosion of natural gas yesterday afternoon the West Washington street power-house of the Citizens' Street Railroad company was demolished, incurring a loss of about \$20,000. Engineer Egan and Fireman J. H. Gallagher were struck by flying missiles and painfully but not fatally injured. Traffic on all lines is impaired, but arrangements will be made to handle the race crowds next week.

Shot His Father-in-Law.

RICHMOND, Ind., Sept. 1.—Bert Newport, who, on the night of July 4, was drawn into a quarrel with his father-in-law, Fred Heiger, and shot him, was captured yesterday at Franklin, O., having made his escape at the time of the shooting. He was bound over to the circuit court in \$2,000 for shooting with intent to kill.

King of the Harness.

FORT WAYNE, Sept. 1.—Mascott, Flying Jib and Nancy Hanks have been de-throned and Robert J. stands today king of harness horses. The great son of Hartford, driven by Ed Geers yesterday, made the fastest mile ever paced in harness, lowering the world's record of 2:04 to 2:03 3/4.

Drowned While Bathing.

AKRON, O., Sept. 1.—Professor D. E. Conant, instructor in the gymnasium of the Chicago university, was taken with cramps while bathing in Silver lake yesterday afternoon and drowned.

The tax frauds at Memphis in the past ten years will reach the enormous total of \$4,000,000. All the officials must have been "standing in" with each other in this robbery, otherwise the fraudulent work could never have reached such proportions.

The price of wool is already stiffening, the woolen mills are getting ready for a largely increased business, and here is the Wool and Cotton Reporter asserting that our manufacturers are going to make as cheap and good goods as can be made anywhere else in the world. And this is all the result of placing wool on the free list. The predictions of Republicans that free wool would ruin the wool industry are not apt to come true.

Diversify the Crops

A Boyle County correspondent says: "Our local traders have been buying for shipment in bulk, a few crops of Irish potatoes at 30 and 35c per bushel. Some of the largest and best crops have been grown in the Bryantsville district of our county by L. W. Hudson, Yates Hudson and others, the latter reporting a yield of 250 bushels to the acre. This will beat forty-five-cent wheat all out of sight. Diversified agriculture is the lesson the hard times have taught, and if our farmers will only learn and practice it the experience will be valuable. There are other things besides corn and wheat that our wonderful soil and climate will produce, and we need to find out what they are and give attention to them."

THE INSTITUTE.

It Closed Friday at Noon After a Most Profitable Session.

Members of the Reading Circle—Resolutions Adopted—List of the Teachers Enrolled.

Friday morning's session of the Institute opened with music led by Mr. Asbury, Superintendent Blatterman organist.

"How to Teach History" was the first subject and was discussed by Messrs. Rowland and Swift. History, biography and geography go hand in hand, each bearing directly upon the other. Not only is it necessary to know the facts of history but the pupils must know something of the lives of the makers of history. Never require pupils to memorize the text in history. Encourage investigation from outside sources. Ask how many can relate a fact not given in their text. Above all the teacher should be one of broad reading and culture. Every event in history may be traced to a cause. The cause and effects of history must be dealt with. No one can successfully teach United States history who is unacquainted with English history. The teacher is responsible for the interest of the class work and should see to it that life and vigor in conducting a class are not wanting.

Mr. G. H. Turnipseed discussed in a very interesting way the question "How to Teach Physiology." The speaker used the members of the Institute as a class and as such he conducted a recitation. Many pertinent questions were asked and in most instances satisfactory answers were given by the teachers. All enjoyed the discussion.

Mr. Clarence Martin followed in a short talk, giving his method of teaching Physiology to beginners.

Superintendent Blatterman now addressed the teachers. He presented a scheme for making correct reports and gave a simple rule for finding per cent. of attendance based on the census and on enrollment.

It affords us much pleasure to give the names of all who enrolled as members of the Reading Circle. They are as follows: Mary E. Thornton, Annie L. Hudson, Lily L. Poage, Mary W. Clay, W. T. Pollitt, W. T. Berry, Clarence Martin, Sallie Midghall, William H. Hicks, J. W. Asbury, E. D. Shelton, H. P. Wilson, June Pelham, O. M. Calvert, R. M. Lee, R. E. Wilson, C. D. Wells, Bettie Sherborn, Mamie Yancy, Kate Greenhow, S. L. Kaye, Robert P. Moody, W. R. Chandler, Harriette K. Owens, Andrew Evans, Maggie Murphy, T. V. Chandler, Alice A. Dorsey, Maggie Bean, Edella G. Parson, Cottie Rigdon, Bettie Hannah, Lettie Evans, Sue Grant, Bessie Martin, E. Swift, Hayes Thomas, Lenora McDaniel, M. L. Downing, W. C. Slye, E. B. Bufington, Anna Lee Fristoe, M. H. Kane, Jennie Leggett, I. S. Kaye, Amy Goddard. Superintendent Blatterman, J. H. Rowland and Mr. C. L. Sallee, County Examiners, are also members of the Circle, *ex officio*.

The following resolutions were adopted:

Resolved, That we tender a vote of thanks to the newspapers for kindly publishing the proceedings from day to day.

Resolved, That a vote of thanks be given to Superintendent Blatterman for the able manner in which he has conducted this institute, and for the urbanity with which he has uniformly treated the teachers.

Resolved, That a vote of thanks be given to Prof. Willis for his earnest, faithful work as an instructor and that we will kindly cherish his genial and courteous treatment to the teachers and all who came in contact with him.

Resolved, That a vote of thanks be given to the Secretaries, Prof. Rowland and Mr. Clarence Martin, for their faithful and efficient work, done by them during the session.

Resolved, That a vote of thanks be tendered to the Board of Education for the use of the High School building.

Resolved, That a vote of thanks be given to Professor Rowland and Asbury and to Misses Fristoe, Hudson, Leggett and others for their most excellent music.

Mr. Hayes Thomas, Miss Lettie Evans and Mr. Clarence Martin composed the Committee on Resolutions.

Mr. E. B. Bufington of Minerva was chosen delegate to the meeting of the State Teachers' Association, with Mr. J. W. Asbury alternate.

Following is a complete list of the teachers enrolled during the meeting:

A GREAT GAME.

It Looked Like Another Tie, But Lexington Won at the Finish.
The Summary.

The crowd at the ball park Friday afternoon to see the second game between Lexington and the locals was probably the largest of the season, to date. People who never saw a ball game were on hand.

The teams put up another great game, and it looked like another tie, but the visitors succeeded in scoring a lead of two runs in the eighth, which the locals were unable to overcome.

The locals put up a cleaner game than the Lexingtons, and ought to have won, but Brunner's miff of a fly and Wadsworth's two errors were costly, and these and two or three long hits by the visitors in the eighth settled it.

Chard was in the box for Maysville. While he hasn't the speed of Wellner nor the command, yet he pitched a good game, and the visitors were a long time finding his balls. Montfort was behind the plate and took care of his part of the work in fine style.

Gagen twirled for Lexington and the way the locals batted him, especially at the start, made him wish he was anywhere else but in the box.

The game was characterized by some lively work and there were several exciting double plays. Taylor's running catch of a long fly to left field was one of the sensational plays of the game. It was one of the most difficult ever made on the grounds. The locals have certainly secured a prize in Taylor.

Diesel, another one of Maysville's new players, was on third, and looked after his position in fine style. Captain Fred Frank was at second and played an errorless game, as did Cox at first and Rogers in right field. Following is the summary:

THE Commercial and Financial Chronicle speaks very highly of the manner in which President Ingalls has handled the Chesapeake and Ohio road since he has been at its helm. ALL the teachers of Hayswood will be in their respective positions next Monday morning ready to commence their work for the new school year. SUNDAY night Rev. M. J. Caudill, of Johnson County, was robbed by six masked thieves. Monday the band was captured in an adjoining county and taken to Paintsville, where they were immediately brought before the Grand Jury, which returned indictments against each of the criminals. Their trial in the Circuit Court was taken up Tuesday, and Wednesday the leader was sentenced to four years in the penitentiary. If all cases against criminals were disposed of as promptly, Judge Lynch would have little work to do.

HERE'S some good advice for Democrats everywhere. The Carlisle Mercury says: "The Democrats of Lewis and Greenup counties have put strong county tickets in the field and will make a strong fight at the coming November election. Now if the Democrats of these two counties will lay aside any personal feeling or pique they may have, and go in for party and principle they will merit and receive the thanks of their party friends everywhere. It strikes us that now is the time for fighting. The Republicans are boasting that they have the Democrats on the run, that they are going to carry everything in sight and out of sight, and in order to show them that they are the same old gas-bags they always were, we call upon every Democrat to stand by his colors now."

COWARDLY MURDER.

A Farmer Shot Through an Open Window Near Kokomo, Ind.

KOKOMO, Ind., Sept. 1.—James Gregory, 45 years old, who made his home with Mrs. James Loomis, a widow, on a fine farm west of this city, was assassinated last night by some unknown person. Mrs. Loomis was ill, and Gregory was in attendance at her bedside about midnight. He had arisen to give her medicine, when a shot was fired through an open window, killing him instantly.

The murderer was soon captured. He proved to be Gregory's cousin, Horace Loomis, son of the aged lady in whose residence the murder occurred. Young Loomis had quarreled with Gregory, accusing him of trying to get possession of the old lady's property. The murderer, after the shooting, fled to Clinton county, but returned with an improbable story that he and Gregory had been attacked by robbers. Loomis is 35 years old and has been in the insane asylum.

Fast Time Across the Ocean.

NEW YORK, Sept. 1.—The Canard liner Lucania, which sailed from Queenstown at 12:45 p. m., Aug. 26, passed in at Sandy Hook at 5:18 yesterday afternoon. She has therefore lowered the record of the steamer Campana of the same line, as in order to equal the Campana's time of 5 days 9 hours and 29 minutes, made this month, the Lucania should have reached the Sandy Hook lightship at 5:35 p. m. Allowing 20 minutes for the run from the lightship to Sandy Hook she has beaten the Campana, who holds the fastest western record by 40 minutes. The best previous western record of the Lucania was 5 days 12 hours and 47 minutes, which was held as the record until Aug. 17, last, when the Campana made the run in 5 days 9 hours and 29 minutes.

Wear of Suffering.

CLEVELAND, Sept. 1.—Edward S. Dean of 27 Denn street, a wealthy retired business man, became weary of suffering bodily pains and shot himself through the heart yesterday. He placed the muzzle of a shotgun against his breast directly over the heart, and sent a heavy charge of shot tearing through his body. His entire side was blown away, and death was instantaneous. Mr. Dean had suffered intensely from dropsy for several years.

Outbreak of Natives.

LONDON, Sept. 1.—A dispatch to The Times from Cape Town reports the outbreak of a revolt among the natives in the vicinity of the Portuguese town of Lorenzo Marquez, on the north side of Delagoa bay. Thousands of natives are gathering under the leadership of Moeveja. The natives in Lorenzo Marquez have deserted and are joining the rebels.

Next Congressman From the Ninth.

Hon. R. K. Hart, Democratic nominee for Congress from the Ninth district, spent Thursday at the fair, where he was greeted by legions of friends whom he had met and made during several terms in the Legislature. Mr. Hart is descended from one of the first families of Kentucky and has a hospitable home in the pretty village of Poplar Plains, in Fleming County. He was nominated by acclamation, but all the power of money is being used in favor of his Republican opponent. Kentucky is accustomed to remain true to the sons of an honored ancestry, and it is not thought possible to overcome Hart's popularity and the usual Democratic majorities in that district.

"And God said, or the Lord said," as so often found in our Bible, is a characteristic of all prophetism of both the true prophet and the false prophet, and of itself is therefore not evidence that the Lord spoke.
